

Kitchen

Design, Craft, and Installation

At Countryline Woodcraft, we craft custom kitchens that balance function, beauty, and enduring quality.

Since 1990, our team has been trusted across Southwestern Ontario for kitchens that reflect personal style while maximizing every inch of space.

From classic country charm to sleek, modern lines, each kitchen is built using premium materials—solid wood cabinetry, dovetail joints, and hand-applied finishes—that speak to our commitment to traditional craftsmanship and timeless design.

We collaborate closely with every client to understand their unique needs, creating thoughtful layouts with intuitive storage, ergonomic flow, and elegant detailing.

Our in-house design and installation team ensures seamless integration from initial concept to final fit, with cabinetry that adds lasting value to your home.

Proudly based in Wallenstein, we cover an extensive area from Goderich to the GTA.

Explore our portfolio to see how a custom Countryline kitchen can bring lasting warmth, function, and refined craftsmanship to the heart of your home.

Key Features

Every Countryline Woodcraft kitchen is built with key features to ensure lasting quality, strength, and convenience.

Dovetail Joints

All Countryline drawer boxes are precision crafted with dovetail joint construction for lasting strength and integrity.

Roll Out Drawers

Full-extension pull-outs provide easy access to deep shelves and neatly tuck away behind cupboard doors.

Drawer Inserts

One or two layer systems are available to help you make the most of your available drawer space while keeping your kitchen utensils organized.

Soft Close Hinges and Drawer Glides

Our soft-close hinge and drawer glide systems ensure a quiet, smooth and secure close every time.

Bath

A well-designed bathroom should feel both personal and practical. At Countryline Woodcraft, we bring warmth, elegance, and craftsmanship to this essential space with custom vanities, linen towers, and built-in storage solutions designed for real-life use. Every piece is built in our Wallenstein workshop using premium materials, ensuring durability in humid, high-traffic environments.

Whether you're after a floating vanity with integrated lighting, a furniture-style double sink cabinet, or a fully custom layout with clever storage, we tailor every detail to your lifestyle. Our designs range from clean and contemporary to warm and rustic, each one combining form, function, and finesse.

We don't just build cabinetry—we enhance your daily routine with thoughtfully crafted pieces that feel effortless and refined. With expert installation and a commitment to quality at every stage, we create bathroom furnishings that elevate the experience and add lasting value to your home.

Built-ins

Custom built-ins are where function meets form—bringing organization, character, and continuity to any room.

At Countryline Woodcraft, we design, build, and install beautifully tailored built-ins that transform underused areas into smart, stylish storage.

From custom wall units and floating shelves to mudroom cubbies, laundry room cabinetry and walk-in closets, our work is designed to suit your lifestyle and space.

We work with you to ensure every detail feels intentional—from wood species and finish to layout and hardware.

Whether you're seeking a statement piece in your living room or subtle functionality in a hallway or home workstation, we build with the same care and precision across every project.

Our built-ins integrate seamlessly with your home's architecture, offering clean lines, smart storage, and long-lasting quality.

Let us help you bring order and beauty to the spaces you use every day, custom-made, professionally installed, and built to last.

Office

A well-crafted workspace can transform how you focus, create, and connect. At Countryline Woodcraft, we design and build custom office furnishings that support productivity while reflecting your personal or professional style. Whether it's a dedicated home office, a multifunctional nook, or a full commercial workspace, our cabinetry, desks, shelving, and built-ins are made with precision and purpose.

We combine traditional woodworking techniques with modern features—hidden cable routing, built-in lighting, and ergonomic layouts—creating clean, functional environments that work as hard as you do. Every project is custom-designed to fit your workflow and space, using durable materials and high-end finishes.

From a warm, inviting executive desk to a minimalist wall unit with integrated storage, we create spaces that are both efficient and elegant. With expert installation and attention to every detail, our office solutions are beautifully built and built to work—for life, and for business.

Tables, Chairs (and Furniture)

Countryline Woodcraft offers a wide range of handcrafted tables, chairs, and custom furniture designed for lasting comfort, beauty, and everyday use.

From kitchen islands and family dining tables to office meeting tables, sideboards, and seating, our pieces are built using solid wood, quality metalwork, and durable joinery techniques that ensure strength and longevity.

Every piece is made to order, allowing you to choose dimensions, finishes, and materials that reflect your personal style.

Whether you prefer the natural warmth of rustic maple, the clean lines of contemporary design, or the classic elegance of turned legs and rich stains, we bring your vision to life with expert craftsmanship.

You can also choose from a wide selection of custom benches, hutches, coffee tables, and more—perfectly suited for modern, traditional, or transitional interiors.

Built locally and delivered with care, our furniture adds timeless character and everyday function to any space, residential or commercial.

Custom

At Countryline Woodcraft, we specialize in creating one-of-a-kind custom applications that elevate commercial spaces through exceptional design, precision craftsmanship, and high-end materials. From statement-making built-ins and custom wood features to fully tailored reception areas, branded environments, wall treatments, and solid wood furnishings, we work closely with clients to realize distinctive solutions that meet both functional demands and aesthetic goals.

Every element is crafted with intention—using premium solid woods, refined detailing, and time-tested joinery methods to ensure durability, beauty, and a lasting impression. Whether it's a unique architectural feature, integrated display, or full-scale commercial interior, our work reflects the identity of your business while enhancing usability and space efficiency.
